THE SOUTHERN RELIEF MOVEMENT.

"Don Tomasso," in a late letter from San Francisco to the *Virginia Tresspass* says: "The chief topic of conversation for the last two weeks or so has been, 'What shall we do for the starving thousands of the South?' Everybody wanted to do something, but no one knew just what to do—till finally a few of our leading citizens got together and concocted a plan that is proving a splendid success, and through which we will no doubt raise \$50,000 in this city alone; and as the fire of benevolence appears to be spreading in every direction there is no telling how much will be contributed by the noble-hearted men of the Pacific coast. And now, my Lord Duke, here comes in a strange anomaly: Who do you suppose the men are who contribute this money and started the movement? Why, they are principally Northern men. The Southerners are heart and soul in the movement, but the fact is, the Southerners here have, as a general rule but little money, and could not do much if they tried ever so hard. So, is this not a splendid spectacle? To see a people whose hearts were filled only a year or two ago with the bitterest hatred toward these same Southern rebels, now turn about to so short a time and give them bread instead of lead? Aye, it is a splendid spectacle, and well calculated to make one think better of the human race. I know it has had that effect on me; and being a native of the South, and personally knowing nearly all the contributors to this fund, I think there is no one better qualified to appreciate this great charity than myself. I think it no mere charity—but the genuine article, if there is such a thing in the world—and will do more to actually reconstruct the late rebel States than all the bills that Thad. Stevens and Sumner could write in ten years to come."

This Southerner makes the same mistake that all his brethren have made; that because we loved justice, and would fight for it, therefore we hated the Southern people. We are ready, and always have been, to show them mercy, and we have not changed because we give bread in peace to those to whom we gave lead in war.

SULPHUR FOR BLIGHT OR MILDEW ON PEACHES AND ROSES.—At the September sitting of the French Imperial Society of Horticulture M. Lepere called the attention of the members to some very fine samples of the variety of peach known as the *Galande Bellepierre*. He said that variety of peach had been almost abandoned for several years by the cultivators of Montreuil because it was subject to blight or mildew, for which no remedy was found. He had continued to cultivate, and with great advantage, from the time when, by use of sulphur, he had been able to free the tree from the parasite which injured it.

M. Andry asked if the blight on roses could be overcome by the same remedy. M. Margottin replied that sulphur was a perfect cure for this disease in roses, but we must apply it as soon as the parasite appears, before it becomes firmly established. It is better that the shoots should be only about six or eight inches in length when the application is made.

This blight or mildew often appears just as the roses are ready to flower again, but a new application will remedy the evil. The remedy should be applied when the day is clear and warm, for the sulphurous acid, resulting from the slow combustion of the sulphur under the action of the sun's rays, quickly kills the parasite; whereas if the application be made followed by rain the sulphur is washed away, and it becomes necessary to apply it again. M. P. not confirmed, from his experience, the efficacy of the above remedy, as did M. Verdier; the latter, however, insisting that the remedy should be applied when the leaves of the shrub were very small.

OCEAN FARE.—The new California, Oregon and Mexican Steamship Company have fixed the following rates of fare for the present: To Mazatlan, cabin passage, \$70, steerage, \$35, and freight per ton \$10; to Guaymas, cabin \$75, steerage \$40, freight \$12; to Crescent City, cabin \$30, steerage \$15, freight \$10; to Gardner City, cabin \$40, steerage \$20, freight \$10; to Portland (Oregon), cabin \$35, steerage \$20, up freight \$6 to 7, down do. \$5 to \$7; to Victoria, cabin \$50, steerage \$20, up freight \$8, down do. \$6; Sitka, cabin \$100, steerage \$50, freight \$20.

At a M-tholitic meeting, he singer who led the psalm to a, finding that his concluding word, which was Jacob, had not syllables enough to fill up the music adequately, ended thus: "Ja-a-a-Ja-a-a-tol de riddle cob!"

SEMI-WEEKLY ENQUIRER.

WEDNESDAY, MAY 1, 1867.

THE PROPOSED AMENDMENT TO THE STATE CONSTITUTION.—Our last Legislature proposed four amendments to the State Convention as follows:

- 1.—To abolish special judicial elections.
- 2.—To elect a State Superintendent of Public Instruction in 1868, and every four years thereafter.
- 3.—To authorize the Legislature to pass a law making the payment of a poll-tax a prerequisite to the exercise of the elective franchise.
- 4.—To prohibit the Legislature from making any appropriation of money, for any purpose whatever, for a longer period than two years.

It was supposed that holding a separate election for Justice of the Supreme and District Courts, and the Superintendent of Public Instruction would remove them from the field of party politics. But it has been found by actual experience, that it does not such thing. A separate election does not prevent in any case a nomination by a party convention. Experience has taught us too that we can nominate and elect just as good men in a regular party convention as at a separate judicial one. In fact, the chances of securing good men are better at a full convention and election than under the present system. We therefore favor amendments 1 and 2, which will bring all elections on the same day throughout the State, and only once in two years. As to a poll-tax pre-requisite, we like it. If any man is too poor to pay it his party friends will supply his deficiency, and four or five dollars a year is little enough for any man to pay for the privilege of voting. No man who favors taxing a non-voter \$50 a year, can possibly object. As to No. 4—we are not for it. The people should have some little power left to themselves and their representatives. If they are too thievish to trust themselves they had better turn over the business of governing to one authorized robber chief, to be called King or Emperor, and close out the Republic at once. When a man must tie his hands to keep him from robbing himself, he had better go to Bedlam at once.

As there are several reports as to the facts relative to the late homicide which occurred at Cisco on April 23rd, we procured a copy of the testimony as taken before the Coroner's Jury, and find from the evidence that Sexton was going toward the Justice's office with the avowed purpose of giving himself up when he was accosted by the Constable. He refused to stop to allow his arrest, when two shots were fired, one by the Constable, and the other by one of the posse. When the Constable fired he was five or six paces from Sexton, who clinched him when they both fell, Sexton on top, when he stabbed Rogers several times. During the time that the parties were clinched several shots were fired by the posse. Sexton had no pistol during the melee, and the witnesses singularly agree as to the assertion of Sexton when accosted by the officer that he was "going to give himself up to the Justice." Mr. Rogers is said to be improving, and we sincerely hope he may entirely recover. We gave the main facts in relation to this occurrence in our last.

THE EXHIBITION.—The exhibition given by the pupils of our Public School on Monday evening last, at the Theater, was a very creditable affair. Most of the speakers and singers acquitted themselves well. Some of the tableaux were very beautiful, particularly the crowning of the May Queen. If any California village can produce a finer, healthier, or more beautiful bevy of girls, let them present them. We challenge comparison and competition. If any are doing more for education we are glad of it. About \$60.00 were secured toward the purchase of a musical instrument for the school. The trustees will furnish the balance, we are informed, and at the opening of the next term, the little ones will have an organ to help them make music. We congratulate them.

SPECIMEN OF LATTER-DAY DEMOCRACY.—The following piece of polite and refined literature relative to the recent political action in South Carolina we find in the Placer Herald of the 27th April. The high-toned, chivalrous editor of that paper appears acquainted with his subject, and true to Democratic instincts, slanders the Northern women in a brutal and disgraceful manner. Political prejudice, no matter how strong, should never make a man forget the common decencies of life, as appears to be the case in this instance. We copy the article in order to show the deep rancor and demon-like disposition of the writer, induced from an adherence to pernicious principles. Foul, indeed, must be the doctrines that would cause such a wholesale insult upon the women of the North:

"We are informed by the telegraph, that since South Carolina has concluded to adopt (so reported) the Massachusetts' doctrine of mongrelism and negro equality, that miscegenation of the latter State having failed in their attempts to induce negro emigration to the 'Hub,' by which they might improve their effeminate and degenerate race of spinsters and yellow bellied snobs, are emigrating in large numbers to South Carolina. By this means they, no doubt, expect to improve their breed, by having a copious infusion of South Carolina negro blood into the Massachusetts stock. South Carolina, however, cannot be congratulated on the accession to her population or the cross on her stock—the genuine negro being far superior to either the original miscegenationist or the half-breed."

LETTER FROM COLFAX.

COLFAX, April 30th, 1867.

MR. EDITOR:—Since my last we have had no more political arrivals from this Township, although it is said there has been quite a correspondence carried on. The trade between our would-be wire workers and Gold Run, since it has been exposed, does not sit so well on the stomachs of a large portion of our own party here. Many who have been quiet in the background, and who were not disposed to take an active part, have come out and say that "no clique shall sell them to Gold Run, or anybody else." They say that they desire, as well as everybody here, to have a local Justice and Constable, but they are not going to do what they conceive an unfair and unjust thing to secure them. They are content to let our claims rest upon their own merits with the people of the Township, and feel satisfied as to the result. I am glad to see this awakening, it bodes no good to some of our intriguers, and I would not be surprised if it resulted in the election of an entirely different delegation than the one heretofore fixed on. It is said that Senator Bradley is favorable to the claims of Mr. Richmond, if so, that gentleman could greatly aid his friend here; for he is well known and has the unbounded confidence of this community. At any rate we would be pleased to receive a visit from him prior to the Primary Election, to avail ourselves of his views in the premises as well as to have the pleasure of shaking him by the hand since his return.

The correspondent from here to the Stars and Stripes chimes in with that paper and accuses me and you of misstatements in regard to political affairs, as well as others. It is not necessary for me to tell him that I do not fear his sort. I have already busted out two correspondents of that paper, and feel myself perfectly competent to cope with him. [We hardly think that the last named correspondent would be worth the ammunition—no matter how small—required to silence him.—Ed.] If he belongs to that portion of the Union party here who wishes to sell out "boots, breeches and all" to Gold Run—as I suspect—I can tell him that his moves will be well watched and his game badly beaten. None have a greater desire for the success of our party than myself, and I sincerely regret that we have a fester and sore fastened on us here by him and others, and in our county organization by his master. The time for action is rapidly approaching and time will tell who has the longest pole.

NEW ROAD.
I am told that a good civil engineer could find employment at this time from the Superintendent of Rice's new road. The engineering heretofore has not been perfectly satisfactory, although claimed by some to be so. It appears to have been done in sections, but the sections, in every instance, when completed, do not fit in the manner contemplated. Section No. 3 was completed by the Celestials engaged in constructing, and when finished ran smash up against a perpendicular cliff. The Chinese were greatly tickled, they said "No good, John. He no sabe. He one d—d fool." On direction, however, they afterwards went quietly to work on another place, which from appearances, will end similarly. In conversation yesterday, with the Superintendent, he told me "that all was most accurate, that the diagnosis of the work would yet connect with the meanderings." I agree with him.

MORIBID TASTES.
An individual was here the other day rushing wildly around with a sensation "yellow livered document," purporting to be the confessions of one, Antonio Probst, who killed the Deering family. The ignorant brute who did that act might well be permitted to rest in his grave, and the penny-a-liner, in my opinion, was in poor business when he undertook the re-hashing of the horrid affair for public appetite. I thought, at least, that he had sought a poor market, for we in this part of the State are too frequent witnesses of similar outrages to be much affected by those at a distance. This county has been infested by a gang of "roughs and rowdies," whose common and ordinary transactions, if written up, would compose a piece of this character of stuff superior to this confession of Probst; and the tragedy at Cisco the other day, if illustrated and published would be far more readable, and tend to show as correctly the depravity of the animal man. I would advise those canvassing for similar publications to seek a different field for operations.

MISCELLANEOUS.
Mr. Hamilton, the gentlemanly proprietor of the stage line from here to Grass Valley, has settled fully and satisfactorily with all the parties injured by the recent upset of his stage. In this he has shown good judgment and a full appreciation of the position he occupies. He is deservedly popular with the traveling public.

We had an exhibition of the artistic skill of some of our citizens on Saturday night last. The company was composed entirely of Amateurs, but they acquitted themselves creditably and gave general satisfaction to the crowd attending. They propose visiting the neighboring towns and I trust they will have a respectful showing.

SUCCESSFUL SURGICAL OPERATION.—On Wednesday last Dr. H. W. Nelson assisted by Drs. Wilson and Strong, removed from the region of the shoulder of Mrs. John Hoos, of this place, a large tumor weighing over a pound. Mrs. Hoos was first placed under the influence of chloroform, rendering the operation a painless one, and in a few minutes the quick hand of the skillful surgeon had removed a constant source of trouble to the patient. Mrs. H. is now attending to her usual avocations, the wound requiring but little attention, but is unable to express her gratitude to those who so successfully treated her case.

PROGRESS.—The Wagon Road toward Little York, is completed as far as Bear river, so as to let a wagon over. By the end of the week it will be ready for delivery to the directors. A few rocks are to be blasted, and points trimmed and it will be finished, and well done.

New York, April 29.—In the Supreme Court to-day the judgment of the Circuit Court for California was confirmed in the case of *Nichols vs. Knapptonick*. Senator Nye of Nevada will spend the Summer at Saratoga; ill health arising from Panama fever causes this necessity on his part.

The Herald's dispatch says the counsel for Georgia and Mississippi are confident of getting an injunction from the Supreme Court. It is alleged that five of the nine Judges are in their favor.

The ship *Sherby*, one hundred and forty-nine days from New York, with merchandise to Wm. T. Coleman & Co.; and the ship *Cordillera* from Yokohama and Jeddo arrived last night. The ship *Antwerp* with 32,340 sacks of wheat cleared for Philadelphia last evening.

New York, April 29th.—The *Times* special says: "The working of the Treasury for the month just closing will show another larger reduction of the National debt. In the next statement of Secretary McCullough the total debt will be reduced to about twenty-five hundred million, at which point he believes it must remain stationary so long as the present Government income and expenses are maintained. The Indian war will draw largely on the National resources this Summer, while the course of the Treasury is perfectly clear and easy. A reduction of the National debt must soon be suspended, for a time at least. The Herald's special says: 'Parties urging the injunction against the Reconstruction Law express confidence in their success.' The *Times* special says a creditor has been issued and signed by fifty of the leading manufacturers of New York and Boston, inviting the commercial and manufacturing interest of the country to meet at the Astor House on the 8th day of May to consult on the present condition and prospects of the material interest of American industry, and decide on arousing public attention to this subject. The success which attended the Free Trade League in forming public sentiment by casting wide spread popular documents throughout the country is cited by the call as demonstrating the necessity of adopting some means equally effective to counteract the evil it is alleged to be working.

St. Louis, April 29.—Advices from Forts Riley and Sully a month later than the reported massacre at Fort Buford makes no mention of any trouble whatever in the upper country. The account of the affair is considered a canard at Yonction.

OMAHA, April 29.—Track laying on the upper Pacific Rail Road, recommenced to-day. The Quartermaster has notified the Superintendent that the road should grant transportation for 30,000,000 lbs. Government stores during the coming season. The *Democrat* correspondent, with Hancock's expedition, says the Cheyenne village where the troops had been camped for several days was burned on the 20th instant, involving a loss of \$10,000. Gen. St. Louis is still in pursuit of the Cheyennes who fled southward.

N. W. BLANCHARD	County at Large

Mrs. LYNN's husband, during the late session of the Legislature of the State of Nevada was employed as scavenger of that delectable body, and has accumulated considerable "sugar," a portion of which he attempts to "fling" at us, in his issue of the 27th April. He takes exception to our course, and says we are "dictating to the Union party of Placer county," and that in 1884 we "had not the stink of treason washed off;" calls us a secessionist, stultifying sneaks, and other like polite and refined epithets, which we would publish but our modesty coupled with our reverence for common decency forbids. As Lynn was purchased by the Union party of this county for the sum of three hundred dollars—a sum by the way, infinitely beyond his worth—and ran away from the State before he rendered an equivalent for the purchase money, we suppose he is like all ingrates, attempting to appease his injured honor, by slandering his betters, as well as becoming a pensioner upon the brains and popularity of those who had use for his filthy offices. Why, the contemptible old humbug, does he remember when he left Auburn dissatisfied with the proceedings of the Republican Convention and wrote a leader for the Placer Courier cutting that paper loose from all affiliation with his party and could only be appeased by the party paying him his price, three hundred dollars? Does he forget the letter he published in this county recommending himself to the people for a respectable office? Does he forget when the Central Committee refused to barter with an account of his craven character and proverbial unreliability, one gentleman stating he was for sale every year? But we forbear burdening our columns any further with this most disgusting article of Chinese warfare; the people of this county know him and in this knowledge congratulate themselves that he is a citizen of the State of Nevada. You must excuse us, Mr. Lynn, we can't enter into a warfare of Billingsgate with you, and are unwilling to say unkind things about the meanest and most depraved. Excuse us, do.

THE UNION TEST.—Discussing this subject the Nevada Transcript says:

Some of the journals that went off after the false doctrine of Johnson, and followed him into the rebel ranks, are terribly exercised about the test adopted by the State Central Committee. That part to which they particularly object is the clause excluding all those from participating in the primaries who do not sustain the reconstruction policy of Congress. That such men, and the Johnson men they represent, should object to a test which excludes them from a voice in the party, is not astonishing; but that they after the full endorsement which the congressional policy has received policy longer in this State is astonishing. The Union party is a party of progress, and a test that does not require that men should be sound on new issues, as well as show a good record for the past, would endanger its success in accomplishing its end. Does any loyal man claim that President Johnson would be a proper person to consult in making nomination for the Union party? If so, it is only necessary to point to the nomination of Bigler and the score of other appointees that have been honored by him. And if the leader in opposition to the Congressional policy cannot be trusted, why should his followers be trusted? The test was not expected to please the Cal and papers of its class, but was especially designed as an antidote for their influence in the party. If such desire to come back into the ranks let them fall to the rear, and prove their fidelity by service on probation. If they do not, we can better afford to fight them with the common enemy, than to fight them in our own ranks. Had the Committee required less they would have failed to represent the loyal men of California.

MAY DAY EXCURSION.—The Railroad Company give the Sunday Schools of Dutch Flat a free ride to Sacramento on May Day.—Sac. Union.

Slightly mistaken. The Sunday School scholars take their ride to-morrow. The Good Templars have their excursion to-day. A closer perusal of our last would have obviated this correction.

MEDICAL.

S. T.—1860.—X.

"JES' SO!"—"EXACTLY!"—Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night he took Plantation Bitters; if he lacked appetite, weak, languid, or mentally oppressed, he took Plantation Bitters and they never failed to set him on his pins square and firm. A few bottles of PLANTATION BITTERS Will cure Nervous Headache,

"Cold Extremities and Feverish Lips," "Sour Stomach and Fetid Breath," "Flatulency and Indigestion," "Nervous Affections," "Excessive Fatigue and Short Breath," "Pain over the Eyes," "Mental Despondency," "Prostration: Great Weakness," "Sallow Complexion, Weak Bowels, &c.,

which are evidences of

Liver Complaint and Dyspepsia.

After a long research, we are able to present the most pleasant, the most remarkable cure for those horrid nightmarish diseases the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not a single instance of complaint has come to our knowledge. It is a most effective tonic and agreeable stimulant, suited to all conditions of life. The report that it relies upon mineral substances for its active properties are wholly false. The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. These imitators try to come as near our name and style as they can, and because a poor article cannot be sold so low as a good one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

REDINGTON & CO.'S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs. As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period. It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, &c.

REDINGTON & CO., SOLE AGENTS for the PACIFIC COAST.
